MEMORANDUM FOR:

FROM: Director of Central Intelligence

SUBJECT: Conversation with Secretary Brown,
30 June 1978

Secretary Brown indicated he was quite intrigued with my concept paper on the Defense Intelligence School. He did recognize some negative considerations, though there were a lot of positive ones. He was also looking at whether Monterey was the only place it might be done or somewhere else. I made it quite clear I wasn't pushing Monterey at all. We left this hanging so I assume he will get back to me.
